

Freelancer for Microsoft Forms project (m/f/d)

We are looking for a committed person for a one-off project in the Microsoft environment. The aim is to create and expand forms and connect them to existing systems using available Microsoft tools. The exact amount of work involved cannot yet be fully estimated, so billing will be flexible on an hourly basis.

What we offer

- / One-time assignment on an hourly basis
- / Workload expected to be about one week, depending on scope
- / Mostly home office, occasional on-site appointments
- / Hourly rate of €35, up to €60 possible depending on experience

Your profile

- / Good knowledge of Microsoft 365
- / Experience with low-code or no-code approaches
- / Independent and reliable way of working
- / Flexibility in scheduling and implementation

Your tasks

- / Design and implementation of form solutions with Microsoft Forms
- / Establishment of connections and automations within the Microsoft system
- / Coordination and brief consultations with the client (one to two on-site appointments, otherwise remote)

Ideal for students or freelancers with technical understanding and an interest in practical projects in the Microsoft environment.

Please send a short profile or your resume with details of your availability to
